Irradiated Food (Refer to Docket No. 98N-1038)

1. All Irradiated food should have the disclosure statement in the labeling.
2. The Irradiated Food label should never have an expiration date.

The labeling is very important because the radiation destroys the vitamins and enzymes in fresh vegetables, fruits, etc. Our bodies cannot function properly and stay healthy without these.

Protect us instead of big money of
big business.

Lincerely
Ray Funk
